What do we do?

It is a meeting for the views of people with learning disabilities and their carers to be heard within BHRUT.

- We discuss concerns about the needs of people with learning disabilities using hospital services
- We suggest things to improve services.
- We discuss things that have gone well in the hospital for people with learning disabilities.
- We suggest how these good things can be used in other areas in the hospital
- We provide reports to the Safeguarding Adults & Learning Disability Operational Group.
- We ensure the needs of people with a learning disability are considered in all hospital policies.
